Elementis plc

Lease of UK Eaglescliffe site

Elementis plc (“Elementis” or the “Group”) announces that it has reached an agreement to lease to the Great North Air Ambulance Service part of the land and buildings at Eaglescliffe, County Durham, UK for 125 years. This transaction will have no material impact to the Group’s financial results for 2018.

The Eaglescliffe site was previously home to the UK Chromium business which closed in 2009. Elementis will continue to operate the site’s water treatment works and landfill site legacies.

Commenting on the transaction CEO, Paul Waterman, said:

"We are delighted that the Eaglescliffe site has been repurposed to the Great North Air Ambulance Service who will be using it to serve the local community."
